Boomage Notice.

THE Directors of the Penobscot Lumbering Association have directed the Treasurer to pay the over-assessment of eight cents per thousand on the logs rafted in 1856, in cash when it is less than fifty dollars, and in scrip on two years when greater, provided each individual first pays all sums due by him to the Association. As in most cases the balance will be in favor of the individual, the Treasurer hopes to receive early calls.

THE HATCH HOUSE,
Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.
Bangor, Feb. 26, 1856

STANLEY HOUSE,
WATER STREET, AUGUSTA, ME.

G. W. BICKER, would respectfully announce to the Traveling Public that he has re-opened the Stanley House, Augusta, and furnished it throughout) with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steam boat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men or persons traveling for pleasure, will find that the House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

Try it! Try it!! Try it!!!

G. W. STONE'S

LIQUID ATHARTI

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THIS necessity of such a medicine has long been felt both by the heads of small families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes set bilious diseases, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes those pains of an local nature, such as *Rheumatism, Neuralgia, The Dyspepsia, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair no—call at once at my Agency, and you will find a remedy for your complaint, for a bottle of my Liquid Carminative Cordial Compound, three hours will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them.—All humors will be entirely cast from the blood by the use of from one to six bottles.

In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1,00.

L. SCOTT & CO.'S

REPRINT OF THE

BRITISH PERIODICALS

AND THE

FARMER'S GUIDE.

GREAT REDUCTION IN THE PRICE OF THE LATTER PUBLICATION.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals:

1.
THE LONDON QUARTERLY (Conservative)
2.
THE EDINBURGH REVIEW (Whig)
3.
THE NORTH BRITISH REVIEW (Free Church)
4.
THE WESTMINSTER REVIEW (Liberal)
5.
BLACKWOOD'S Edinburgh Magazine (Tory.)
6.

These Periodicals fully represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS.

	Per ann.
For any one of the four Reviews	$3 00.
For any two of the four Reviews	6 00
For any three of the four Reviews	7 00
For all four of the Reviews	8 00
For Blackwood's Magazine	3 00
For Blackwood and three Reviews	9 00
For Blackwood and the four Reviews	10 00

Payments to be made in all cases in advance.—Money current in the State where issued will be received at par.

CLUBBING.

A discount of twenty-five per cent. from the above prices will be allowed to Clubs ordering four or more copies of any one or more of the above works. Thus: Four copies of Blackwood, or of one Review, will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30; and so on.

POSTAGE.

In all the principal Cities and Towns, these works will be delivered *FREE OF POSTAGE*. When sent by mail, the POSTAGE to any part of the United States will be but Twenty-four Cents a year for "Blackwood," and but Fourteen Cents a year for each of the Reviews.

N. B.—*The price in Great Britain of the five Periodicals above named is about $31 per annum.*

THE FARMER'S GUIDE

To Scientific and Practical Agriculture.

By HENRY STEPHENS, F. R. S.; of Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College. Now Haven. 2 vols. Royal Octavo, 1600 pages, and numerous Wood and Steel Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to

FIVE DOLLARS FOR THE TWO VOLUMES!

When sent by mail (post paid) to California and Oregon the price will be $7. To every other part of the Union, and to Canada (post paid), 50.

☞ *This work is Not the old "Book of the Farm."*

Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,

LEONARD SCOTT, & CO.,
Jan 31. No. 54, Gold-st., New York.

ALL HAIL!!

Something for the Million!!!

PROF. WOOD'S

HAIR RESTORATIVE!

WE CALL THE ATTENTION OF ALL, OLD and YOUNG, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—cures the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a dressing or preventive for the hair, will preserve its color and keep it from falling to an advanced age, in all its natural beauty. We call them upon the bald, the gray, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the whirling curl, ever be without it. Its praise is upon the tongue of thousands.

Watertown, Mass., May 3, 1856.

PROF. O. J. WOOD:—Allow me to attest the virtues and magic powers of your Hair Restorative. Three months since, being exceedingly gray, I purchased and soon commenced to use two bottles; and I soon began to tell, in restoring the silver locks to their former color, and the hair, which was before dry and harsh, and falling off, now became soft and glossy; and it ceased falling; the dandruff disappeared, and the scalp lost all the diseased itching, so annoying before, and now it not only look but feel young again. Respectfully yours, etc.,

CHAS. WHITNEY.

New York, Oct. 9, 1855.

PROF. O. J. WOOD—Dear Sir:—After reading the advertisement of one of the New York journals, of your celebrated Hair Restorative, I procured a Ballplain bottle and was so much pleased with it that I continued for two months, and am satisfied it is decidedly the best preparation before the public. It at once removed all the dandruff and unpleasant itching from the scalp, and has restored my hair naturally, and I have no doubt, permanently so.

You have permission to refer to me, all who entertain any doubt of its performing all that is claimed for it.

MISS FEERS, 204 Greenwich-st.

Louisville, Nov. 1, 1855.

PROF. WOOD:—Dear Sir:—I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effects. My hair was baldening, as I thought, prematurely gray, but by the use of the "Restorative" it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator United States.

(*From the Washington Star.*)

Among the many preparations now in use for the restoring, preserving and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general use throughout the States. This preparation possessed the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer our readers to the advertisement for a few of the innumerable certificates which have been sent by parties who have been benefited by it, and who feel happy in giving testimony to its wonderful effects produced on them.

EMANCIPATION IN MISSOURI.—The friends of Mr Benton and others are openly acknowledging themselves to be not only against slavery extension, but in favor of direct emancipation in that State—as a policy demanded by her best interests. Not only this, but we perceive by St Louis papers left on our table by a friend that an avowed Emancipationist Mr Palm has just been elected by the Legislature to the position of Director of the State Bank notwithstanding his free soil and abolition declarations and comment upon

We copy the following from the St. Louis Evening News

Emancipation—The Democracy and the Abolitionists

It appears that the endorsement by the National Democracy of Mr Palm's Emancipation movement involved in his installation and election as Bank Director, is a matter of more serious political importance than was at first supposed. It will be recollected that Mr Clover, of St Louis, a Democrat and an avowed Freesoiler voted for Mr Palm, because he (Mr Palm) was an Emancipationist. Mr C. was not alone, and by the whole Benton party which has hitherto claimed Mr Palm's personality as its champion. The Anti-Benton and the Democratic both exult at Mr Palm's election. The former says

"We only regret that other Representatives from St Louis did not follow Mr Clover's example. That the alleged defeat against Mr Palm is well founded is generally known—Most of the ranks and file of Whigs have been among the National Democrats of Missouri, for the galling subscription to the Calhoun doctrines upon the question of the Federal Government to the Territories—one overt act of opposition to the Congressional interposition in favor of the abolition in Missouri. Being opposed to the Congressional interposition in favor of the abolition in Missouri, being opposed to the Congressional interposition in favor of the abolition in Missouri, being opposed to the Congressional interposition in favor of the abolition in Missouri,

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, Feb. 4.

SENATE.—The credentials of Mr. Simmons, Senator elect from Rhode Island, were presented to the Senate to-day.

Mr. Weller reported in favor of printing the documents concerning Gen. Scott's pay. A debate ensued.

The motion to print was agreed to.

Mr. Wilson briefly explained the bill offered by him yesterday, to secure to actual settlers the alternate sections of public lands reserved in grant to States for railroad purposes. He said at the last session Congress granted 21,000,000 of acres, and within a few months the reserved sections, amounting to nearly 12,000,000, will come into market. They will at once be seized by land speculators, to the disparagement of the people of the new States and emigrants from older States. The bill proposed to withhold these alternate sections from sale, and allow actual settlers alone to take up lots of 160 acres each, at $2,50 per acre. If it becomes a law, these lands will be prevented from passing into the hands non-resident speculators, to the permanent injury of new States and the actual cultivators of the soil.

Mr. Bigler from the joint committee to count the votes for President and Vice President, reported a resolution that both Houses assemble in the Hall of the House of Representatives on Wednesday next at 12 o'clock, when the President of the Senate shall be the presiding officer, that one person be appointed teller on the part of the Senate and two on the part of the House, to make a list of the votes as shall be declared by the President of the Senate shall announce the state of the vote, and the persons elected shall be deemed a declaration of the persons elected, President and Vice President of the United States, and together with a list of the votes be entered on the journals of both Houses.

The resolution was adopted and Mr. Bigler was appointed teller on the part of the Senate.

HOUSE. The House adopted a resolution to the effect that Mr Hill is legally elected from the first Congressional District of Iowa.

The House then discussed the joint resolution giving to each branch of Congress the entire control of its contingent fund.

Mr Hocock while opposing the bill said that when he saw competition like gangrene stretching thro'ghout the country he would at first knock down the barriers by which the public treasury were now guarded.

The bill was passed by a majority of 77.

The Com. on Ways and Means reported favorably the Senate's Submarine Telegraph bill. Mr Jones of Tenn moved to table it; negatived, 67 to 103.

Mr Campbell, (who reported it) said he would endeavor to dispose of the subject to-morrow.

House concurred in amendments to the diplomatic and consular appropriation bill.

The tariff bill was taken up in committee of the whole, and Wright of Tenn. Evans, and A K Marshall made party speeches.

Ship News.

BOSTON, Feb 4th.

Arrived at Holmes Hole, 3d, Brig Darien of Weston Mc? Starrett from Apalachicola, 8th ult for Boston; 25th ult. 30 lon. 79½, fell in with the wreck of brig Willie of Machias, Stuart, from Gonaives; for New York—cargo logwood and mahogany—full of water, having been struck by a sea in a gale on the 19th.—Took off the Captain and wife and six seamen, nearly frost bitten and in a suffering condition, having been seven days without food or water. Lost one seaman overboard in the gale.

Also ar brig Matilda of Tremont, Me, Richardson, Havana Dec 25th for Portland, leaky, with the spirit and loss of part of deck load of molasses. On the 18th, in a gale from NE, Mr W R Higgins, mate, of Bucn, Me, was washed overboard and drowned.

Also ar sl p Hiawatha, Smith, from N Orleans for Boston. Jan 29th, about three miles off Nantucket, picked up two boats containing captain and crew—nine in all—of brig Pilgrim, of St John, NB, from Surinam for Boston, stranded and abandoned.

Spoken Dec 13th, lat 2, lon 20 13, ship Premier of Bath, 78 days from Calleo for Havre.

Sl Arthur of Machias, Small, Darien, Wilmington Jan. 26th, no latitude or longitude, lost St. Lawrence's rhomestaff, from Charleston for Boston, with loss of deck load. Had decks swept twice and was leaking; making for the nearest port. The St. L reporter has passed the ship Simeon, a total wreck. Spoken Jan 29th, no latitude, bark Testimonio of Bodmintem, from Liverpool, short of provisions, and was supplied. The capt. thought he would be able to reach Portland, but the vessel was apparently settling, he stood to the southward, and would probably put into Nassau.

NEW YORK, 4th.

Bark Harriet P. Churchill from Frankfort in ballast, with five chiefs, went ashore on the Rocks off Carteret 28th, and it was feared would be a total loss. Cargo might be saved.

HAVANA, Jan. 30 th.

The Captain and crew of the P. A. Tillotson from New York, for Derien, foundered at sea were picked up and brought to this port by the brig L. L. Knight.

From Washington.

WASHINGTON, Feb. 5 th.

The House to-day refused by a vote of 123 to 57, to lay on the table the Atlantic Telegraph bill. It will be called up on its final passage to-morrow.

The correspondence between Gen. Scott and Secretary Davis is voluminous. From a hasty examination of the documents it appears that Gen. Scott declined to give open and specific information to Secretary Davis regarding the expenditure of the secret service money in Mexico, believing it not to do obligation of public service honorably according to the usages of nations and armies, required him to disclose names and circumstances. He however expressed his willingness to give such information for his private ear alone, which the Secretary said he was willing to receive in confidence.

On Nov. 1855 the President writes to Secretary Davis saying, in substance, "Gen. Scott was wrong on grounds on which he has learned that I hold and to a few the five per cent. commission. It is proper, to remark, that he was never authorized or misapprehended my notions himself, fixed three per cent which he might properly have received for his disbursements in Mexico, and a balance struck up. That was the subject of the conversation between us."

Secretary Davis, in response to the President, informs him that Gen. Scott had charged himself with the sum of $261,891, and that all $29,000 was disallowed and captured in Mexico, and to credit for disbursing $232,891 leaving $6,150 withheld by Gen. Scott his account. This balance the Treasurer authorized Gen. Scott, through the Secretary of War, to retain.

Gen. Scott, in a letter dated New York, Dec. 1857, writes that there are two items, making $3,000, against him, as not admitted or disallowed by the President, on account of the 5 per cent charged by him on all monies disbursed by him on all monies disbursed. He says R was entirely within the competency of the President to allow that charge, and asks that a suit may be brought against him by the government, to recover the amount claimed to be due by him—nearly $3,000; but the President declined to enter into

There are many explanations relative to these figures, but the financial part of the transactions cannot be fairly understood by this mere reference to the subject.

Bogus Election of U. S. Senators.

INDIANAPOLIS, Feb. 4th.

The democrats of the Indiana Legislature held to-day a joint convention for the election of United States Senators without the concurrence and in opposition to the protest of the Senate. Graham L. Fitch was elected to the vacancy, and Jesse D. Bright for the full term. There were 23 Senators present, but the convention lacked 3 men of a quorum.

NEW YORK, Feb. 4th.

A warrant has been received here from Washington for the extradition of Carpenter Grodet and the other parties, accused of embezzling the funds of the Great Northern Railway of France.

The fifty thousand dollars embezzled by Stringer from a New Orleans Bank were found to-day in a state-room on board the steamer Cahawba, where the embezzler hid it.

Markets.

THE BALM OF

THOUSAND FLOWERS

Gives a delicate perfume to the breath and thoroughly cleanses the Teeth; eradicates Tar, Pimples, and Freckles, and imparts a very beautiful Complexion; makes a soft and pleasant lather for Shaving; resembles Dupont's drops, and gives a fine gloss to the hair. A Bottle costs only 50 cents.

WARREN L. ALDEN, General Agent for Bangor.

NOTICE.—The firm of Partridge & Co. (W. P. Pettingill and R. H. Rice) was dissolved June 8, 1856. R. H. Rice continues the manufacture of the "Balm of Thousand Flowers" from the original receipts.

Dealers wishing lowest prices will please address R. H. RICE, Agent for Partridge & Co.

nov13 d3m Boston, Mass.

From Dr. Leach, well known as a Botanic physician who has an extensive practice in this city and vicinity.

BOSTON, Oct. 2, 1856.

DR. HAYDEN: Sir,—So much has been said in favor of your justly celebrated Pills, that I do not think anything that I can say will add to their high reputation; but if my name is of any service in their recommendation, you are at liberty to use the same.

Yours, &c. WILLIAM LEACH,

No. 15 Middl Street.

DR. SIOUN'S LIQUID CATHARTIC.—Somebody says that the Americans consume more medicine than any other nation in the world, and the assertion is undoubtedly true; for, besides supporting an army of physicians—"regulars" and "quacks"—we scan low every kind of nostrum that is put into the market no matter whether it comes from a wise man or a fool. There are, however, several standard medicines, which, the longer they are used, the more popular they become; and among this number, we know of none that so well enjoys the confidence of the public as *Dr. Sioun's Liquid Cathartic*. It is particularly recommended for rheumatism, neuralgia, pains in the head, sick, stomach, and the various prevailing diseases of the summer and autumn months; and especially is it used for the eradication of humors from the blood.—*American Citizen, Low*

GROVER & BAKER'S

New Family Sewing Machines!

PRICE $75,00.

Reasons

Why Grover & Baker's SEWING MACHINE —is— Universally preferred for Family Sewing.

1st. It is more simple and easily kept in order than any other Machine.

2d. It makes a seam which will not rip or ravel though every third stitch is cut.

3d. It sews from two ordinary spools, and thus all trouble of winding them is avoided, while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work.

4th. The same Machine runs silk, linen thread, and common spool cotton, with equal facility.

5th. The seam is as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing, or otherwise.

6th. The stitch made by this Machine is more beautiful than any other made either by hand or machine.

We have been appointed agents for the above Machines, and have them for exhibition and sale at our store, where the public are invited to examine them. FENNO & HALE.

A REVOLUTION IN FARMING.

Corn Planted by Machinery.

A SUBSTITUTE for the slow and tedious process of planting corn has long been considered a desideratum; but until now the labored efforts of inventive genius has failed in its production, though years and much money have been spent to accomplish so great a place of mechanism.

Some estimates of the importance of an invention that will materially facilitate the production of this great staple may be formed from the fact that in 1856 near 800,000,000 bushels were raised in the United States, exceeding in value all other grains with the entire cotton crop in addition!

The present universal method of planting this great crop is after the ground is ploughed, by marking out the surface in rows 3 feet apart each way, and in the angles thus formed a man drops 4 or 5 kernels and covers with a hoe at an expense of 20 to 25 per acre; but failure of part, and sometimes the whole crop results from the difficulty of obtaining sufficient force at the proper time in the spring to secure the planting at the most critical time.

Several machines have been made, but failure has only resulted. A plan perfect in one respect was certain to fail in another, so as to render the whole worthless.

No machine until now has been made to meet the universal demand of performing all the work of planting, whether in hill, chick or angular planting, so as to enable him to cultivate with plough and horse, so the crop both ways between the rows.

Drill planting is abandoned because of the impossibility of cultivating but in one direction.

The long wished for machine has been invented and perfected by a young Scotchman, and in the result of those years was carried efforts, patient investigation, and the application of scientific and mechanical principles to accomplish what is desired hereof.

The machine is partly new, simple and beautiful, working automatically, and so perfectly and accurately as almost to appear the result of intelligence.

What Whitney's great invention did for cotton this great invention will do for corn, viz: augment the quantity and diminish the cost.

No description can fully convey a clear idea of its peculiar and simple principles.

Hopper may be of any shape, Hand, Pullies, Cranks, Shafts, Springs, Lever, or Gearing of any kind, with a horse, and driven by hand or boy, this machine executes in a neat and perfect manner the following described work, being what is warranted by every farmer:

1st. Plants and puts the ground any required depth.

2d. Drops the corn (as many kernels as desired) in a space of 4 inches diameter mathematically in the HILL or, if desired, in one inch of a stream.

3d. Covers the HILLS and presses the earth as you do with a hoe.

4th. Marks accurately the position of each HILL.

5th. Deposits, if wanted, guano, superphosphate, salt, lime, plaster, or other commercial fertilizers exactly in the HILL.

And all this at a cost of 15 cents an acre; by any machine, and 10 cents per acre by a double one—10 acres being planted by the first and 20 by the second, in one day, with no more force than a man and horse.

We feel we are making statements hardly credible to that large class of every close who are so much a creature of a century behind the age of this progressive age, and whose ideas revolve in the old ox cart track, but we assure all such antiquated gentlemen that every word is literal, backed and sustained with obvious, clear, and distinct to the meanest capacity, the inclosed production of genius, honest, and comprehensible to all present.

To the distribution of this splendid prize, (and it is a large productive class, whose interests are not alone promoted in its acquisition, but in its application the millions are to be benefited,) the inclosed production of genius and comprehensible to all present.

To the distribution of this splendid prize, (and it is a large productive class, whose interests are not alone promoted in its acquisition, but in its application the millions are to be benefited,) the inclosed production of genius and comprehensible to all present.

Hereby a magnificent monopoly of a great staple Machine, of immense pecuniary value, is secured. It must reach the large productive class, whose interests are not alone promoted in its acquisition, but in its application the millions are to be benefited, the inclosed production of genius and comprehensible to all present.

To the distribution of this splendid prize, (and it is a large productive class, whose interests are not alone promoted in its acquisition, but in its application the millions are to be benefited,

STEAMERS.

Winter Arrangements.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer WESTERNPORT, *Capt. P. S. Berry*, will run regularly between New York and Portland, as follows:

Leave Brown's Wharf, Portland, every *Wednesday afternoon*, at 4 o'clock; and returning, leave New York, Pier 12 N. R., every *Saturday afternoon*, at same hour.

This vessel has just been fitted up with fine accommodations for passengers, making this the most speedy, safe, and comfortable route for travellers between New York and Maine.

Passage $4.50; No charge for State rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport, and St. John, with despatch, at the cheapest rates.

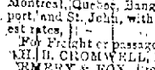
For Freight or passage apply to

CHAS. H. CROMWELL, Pier 12 N. River, N. Y.

EMERY & FOX, Brown's Wharf, Portland.

Portland, Jan. 20, 1857 [illegible]

Summer Arrangement.



The Steamers ATLANTIC Capt. Geo. Knight, and the FOREST CITY, Capt. E. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every MONDAY, TUESDAY, WEDNESDAY, THURSDAY, and FRIDAY, at 7 o'clock P. M., and Centre Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock, P. M.

Fare in Cabin, $1 25

Fare on Deck, 1 00

Freight forwarded daily over the A. & K. and P. & K. Railroads, to Bangor, and all way stations.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded, that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Cars arrive in season for the passengers to take the earliest trains from the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

L. BILLINGS, Agent.

march 14 tf

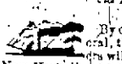
California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices. 60 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.



By order of the Postmaster General, the United States Mail Steamships will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers without any extra expense. This is the only line getting entire Through Tickets, including meals across the Isthmus.

Transit made in four hours, entirely by daylight, this saving the fatiguing exposure by night in open boats, to fever and ague; and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be received by the Agent at Panama, and Tickets thus signed can be obtained of the only authorized Agent for the Atlantic and Pacific Mail Steamship Companies, in this city C. H. BARTLETT, Agent,

No. 15 Broad Street, Boston.

1,000,000 BOTTLES SOLD!

Entered according to Act of Congress in the year 1852, by J. Russell Spalding, in the Clerk's Office of the District Court of Massachusetts.

J. RUSSELL SPALDING'S

This great and popular preparation is decidedly one of the nicest and best articles in the world for the HAIR!

It imparts a richness and brilliancy, cleans, ornaments, invigorates, embellishes, removes dandruff, relieves headache, and has probably been used for restoring and preventing the falling off of the hair with as much success as any article ever known. It has stood the test of time and use, and all can rely upon it.

Sole Proprietor, J. Russell Spalding, Manufacturing Chemist, Principal Depot 227 Tremont-st., opposite the Museum, Boston, Mass., where all orders should be addressed. The fac-simile of his signature is on every bottle of the genuine.

American & Foreign Patents.

R. E. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State Street, opposite Kilby St.,

BOSTON.

AFTER an extensive practice of a period of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other Foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or foreign Patents, to determine the validity or utility of Patents or Inventions, and favorable opinions rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Ass gnments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, of ascertaining the patentability of inventions, not possessed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate, the diligence or practice of the subscriber during twenty years past, has enabled him to procure at a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, a full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. E. EDDY, Esq., of Boston, did the duties of the Patent Office as Solicitor for procuring Patents—Where were few if any [illegible] in his capacity. While he so much [illegible] before the Patent Office, and there were none who conducted it with more ability, fidelity and success. I regard Mr. Eddy as one of the well informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and worthy, and one capable of realizing their wishes within a term so short for them, on easy and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

From the present Commissioner:

August 17, 1853.—During the time I have held the office of Commissioner of Patents, R. E. EDDY, Esq., of Boston, has been extensively employed in the Patent Office as Solicitor for procuring Patents—Where were few if any [illegible] in his capacity. While he so much [illegible] before the Patent Office, and there were none who conducted it with more ability, fidelity and success. I regard Mr. Eddy as one of the well informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and worthy, and one capable of realizing their wishes within a term so short for them, on easy and favorable consideration at the Patent Office.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof it is remedied. By the application of our blacking to preserve it, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my feet constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

FRIESEMAR—None have found it unless the engravings of the Seals of Great Britain, the Seals of the Royal de Pharmacie de Paris, and the Imperial College of Vienna, are used upon each wrapper, and round each box.

Sold by D. E. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 167 Prince Street (five blocks West of Broadway) New York, from 9 o'clock in the morning till 2 and 7 o'clock to 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, as well as physical impediments which like magic before its influence, is rendering it unequalled to those entering the married state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No 3—Is the great European remedy, for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution and which until the Sarsaparilla in the wood cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *In all its cases and disorders requiring advice it is, as always, attended by* Dr. Perry, Ladies Dr., Rooms, &c. Price 5s each, or four cases for 20, which saves $3; and in 27 cases, we credit there is a saving of $5.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the first class, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and offering easily protecting them from spurious and pernicious imitations. The three-dollar cases sent as usual, but not free of carriage.

No 157 Prince-st., (a few blocks west of Broadway) New York.—jan. 13 1y.

Singer's Sewing Machines

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year, but an imperfect one is a victim of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a fine and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform a substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compete with them in quantity of work.

New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N.-B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

Thrice-Weekly Kennebec Journal for 1857.

DURING the approaching session of the Legislature, the undersigned will continue the publication of the *Thrice-weekly Journal*, being the XIIIth Volume of the same.

As is well known, the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings, we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington.

As the renewal of all the Bank Charters in the State will come before the Legislature this Winter, the debates and proceedings will be of public interest to all who are interested in bank property.

The numerous lines of railroad which now traverse the State in all directions, will enable a very large proportion of our subscribers to receive their papers a few hours after their publication. The fact renders a subscription to the Thrice-Weekly more desirable and satisfactory than in former years.

The Thrice-Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings.—The price will be

Single Copy—One Dollar for the Session.

As usual, payable in advance. Any person forwarding us $3 shall be entitled to the ninth copy for his trouble. To any one who will send us $15 we will send two copies extra for his trouble. Whoever shall send us $24 shall be entitled to three copies extra, and in like ratio for a larger amount.

It is desirable that the names of subscribers accompanied with the money, may be forwarded at or before the commencement of the session.—*Money remitted by mail is at our risk.*

PROFESSOR WOOD'S HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether originated as dandruff, itching, or in the shape of cutaneous eruptions, or a scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Headache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling, to any imaginable age. Read and judge.

MILLBURY, Worcester Co., Mass., Nov. 1855.

PROF. O. J. WOOD—Dear Sir:—I take pleasure in bearing voluntary testimony to the magical effects of your wonderful Hair Restorative. As far back as 1838, my hair commenced falling off until the top of my scalp became bald and smooth as glass, and has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement, I was induced to give your article a trial; and to my utter astonishment, after a few applications, that my hair became fairly set, and assumed a light brown appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of air, which is now from four to five inches and a half in length, and growing fast.

Yours truly,

HENRY GOODRICH.

CHARLESTON, Mass., Aug. 6, 1855.

GENTS:—Nothing but a duty and sympathy that I feel to communicate to others the cure affected on me have been would induce me to give the public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy appearance and vigor of the hair, which before was dry, and it has ceased to come out as formerly.

Respectfully your &c.,

MRS. H. A. STODDARD.

From Mrs. Ingalls, a well known woman in Boston.

BOSTON Oct. 10, 1855.

GENTS:—At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color which is light brown.

Yours respectfully,

MRS. INGALLS.

The following is from the Pastor of the Methodist Church, Binghamton:

BINGHAM TON, Mass., Jan. 19, 1855.

PROF. WOOD—Dear Sir—Having made a trial of your Hair Restorative, it gives me pleasure to say that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood; and it has also restored the hair, which was becoming grey, to its original color. I have used no other article with any thing like the same pleasure and profit.

Yours truly,

E. BRAGG.

(From the Jersey City Telegraph.)

WHAT IS IT?—Sure to cure Hair Restorative?—is a question asked daily by hundreds. We answer without hesitation or fear of contradiction, that it is the only article known which will do all it promises for it—*it will re-man hair. It will prevent its growth—it will stop its falling—it will restore its natural color.* It is not a quack dye, but a speedy and effectious Restorative.

THE GREATEST MEDICAL DISCOVERY Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a running sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warrante to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the system.

Two bottles are warranted to cure running of the ears and b tches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A decided if always expected from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effects of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that I sold another, after a trial it always spunks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1850, I peddled it, and sold about six bottles per day.—In April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine great and wonderful results have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy it is will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

Also, several cases of Dropsy, all of them aged people, cured by it. For the variety and diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTION FOR USE—Adults one tablespoonful per day—Children over ten years dessertspoonful—Children from five to eight years, teaspoonful.

As no directions can be applicable to all conditions, take sufficient to operate on the bowels two a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17, *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRISTOL, Me., 20th Dec., 1855.

DR. J. C. AYER—I do not hesitate to say, the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your Pectoral myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

BRATTLEBORO, Mass., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to general favor.

Yours truly, HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, Va., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MARCHESTER, Pa., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man, 70, of a bad cough, and a affection of the throat, for the last forty years. HENRY L. PARIS, Merchant.

A. M. RAMSEY, M. D., ALLEN, Lowndes Co., Iowa, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing it, as are curable."

We might add volumes of evidence but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTON HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for me, which also had been five months under the most dangerous symptoms of Consumption, from which no aid or medical advice could relieve me. Was steadily failing, until Dr. Strong, of this city, whose wife you have given relief, recommended a trial of your medicine. We have since had the happiness of finding me restored to health, and from all appearances, I am destined to live many years to come. Please send me a bottle of your PECTORAL, for a friend from this place. She is not yet as strong as she used to be, but is free from her cough, and can sleep well.

Yours with gratitude and regard,

ORANDO SHELBY, of Buckingham.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and has cured all around us cases of a high nature of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unrivalled reply upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They assist the whole living machine in health's own work. Those who suffer from the various maladies which need a cathartic medicine, will find these Pills the best remedy that can be employed, and the only one which should be kept in the closet for use when needed. Their sugar coating renders them pleasant to take, and being purely vegetable, are free from any risk of harm. No one can take these pills without benefit when they are required, nor is there a condition of the system in which they do not produce the proper effect. Their penetrating power and searching virtues, their control over the secretions, the remedial changes they induce in the various processes of the living body, make them the best aperient we can employ for the cure of all the diseases and derangements of the human system. Hence they are the best physic for the people to use that is known, or that can be employed for the cure of their diseases. While they produce powerful effects in any case, they do not destroy the vital forces. They are the best physic that can be employed for children, because they are the mildest. Being entirely vegetable, and free from any risk of harm. No one can take these pills when sugar coated, they are pleasant to take, and being purely vegetable, are
